PROFESSIONAL OBJECTIVE

Passionate to deliver enterprise solutions utilizing the latest trends and technologies. Eager to acquire career-related knowledge and flourish more. Able to manage projects & teams with dedication and goal settings. An opensource enthusiast, pro-active, quick learner, early adopter & problem solver. Programming is a piece of art to me, art of structure, art of algorithms, art of communication with colleagues & art of delivering the product.

WORK EXPERIENCE

Crowdbotics Corporation

Full Stack Developer

(May 2021 - Present)

- Developing, PR Review, Client Meeting.
- Managing projects/engineers using agile.
- ReactJS, React Native.

DeliveryHobe

Sr. Software Engineer

(September 2020 - April 2021)

My job was to maintain the frontend project of the DeliveryHobe platform, which consist of DH Operation panel, DH Store Front. I worked and managed the frontend team to deliver the product in time for the internal operation team and the customers.

- We Revmap the existing product backend to NestJS and after that implemented the product API and others to the storefront and ops panel.
- Nextjs, ReactJS, NestJS, Redux, Material table, Material UI, Styled Components

FootyLight Pty Ltd

Sr. Software Engineer

(June 2020 - November 2020)

FootyLight is a Soccer/Football live news, video sharing and scoreboard platform, it has over million of user per month.

- Worked with the architecture for the front-end of the FootyLight Web App. There are a lot of technologies that being used for UI, Animations, Graphs and Charts. This is a full fledged web application for soccer or football. My team worked with the UI/UX to Frontend part to deliver the new web app from the API which is being used on mobile app.
- NextJS, ReactJS, Context, Hooks, Material UI, ReCharts, Material Table, Slick and many more.

Roar Global

Sr. Software Engineer

(May 2019 - May 2020)

- Worked with the Roar Media Base, a custom headless CMS for Roar Media platform that manages blogs, news, elections and many more things
- Overseeing development work efforts and quality, Provide technical leadership at a project level before starting any new project

- Work to remove any friction around software deployment to ensure releases and rapid deployment of updates to our customers across all platforms
- React Native, ReactJS, Gitlab

Shimahin Limited

Software Engineer

(April 2018 - April 2019)

- Managing existing back-end and developing front-end for Multi-Vendor eCommerce platform & delivery system known as ShopHobe and DeliveryHobe
- Use my extensive experience with front end development to define the structure and components for the project, making sure they are reusable
- Keep the code quality high reviewing code from other developers and suggesting improvements
- ReactJS, Redux, Material UI, Antd
