**Location:** Dhaka, Bangladesh

### Experience

**Crowdbotics Corporation / Senior Software Engineer - Remote**

May 2021 - Mar 2024, Berkeley, California

As a Senior Software Engineer - Frontend Technologies at Crowdbotics, I am responsible for building and deploying web and mobile applications using the Crowdbotics platform. My key responsibilities includes:

- Developing and maintaining web and mobile applications using React.js, React Native, and other front-end technologies
- Collaborating with cross-functional teams to deliver high-quality products on time
- Continuously improving and optimizing application performance
- Troubleshooting and debugging issues as they arise
- Staying up-to-date with the latest developments in web and mobile technologies
- Developing innovative products, conducting peer review (PR) sessions, and engaging in client meetings to ensure project alignment and success.

**DeliveryHobe / Senior Software Engineer - Part-time**

Sep 2020 - Apr 2021, Dhaka, Bangladesh

I was responsible for maintaining and enhancing the front-end projects of the DeliveryHobe platform, including the DH Operation Panel and DH Storefront, to improve performance and user interaction. We re-engineered the existing product backend to NestJS, subsequently integrating the product APIs with the storefront and operations panel for improved scalability and performance.

### FOOTYLIGHT / Senior Software Engineer - Contact

Jun 2020 - Nov 2020, Dhaka, Bangladesh

FootyLight is a Soccer/Football live news, video sharing and scoreboard platform, it has over a million of users per month. I worked with the architecture for the front-end of the FootyLight Web App.

### Roar Bangla / Senior Software Engineer - Full Time

May 2019 - May 2020, Dhaka, Bangladesh

I have worked with the Roar Media Base, Where we built custom headless CMS for the Roar Media platform that manages blogs, news, elections, videos, analytics, ads. Also, I have contributed to comprehensive documentation that supports the development and system support life-cycles, Mentoring junior members of the team, overseeing development work efforts and quality, and working to remove any friction around software deployment to ensure iterative releases and rapid deployment of updates to our customers across all platforms.

### Shimahin Limited / Software Engineer - Full Time

Apr 2018 - Apr 2019, Dhaka, Bangladesh

Managing existing back-end and developing front-end for Multi-Vendor eCommerce platform & delivery system..

### Bangla Puzzle / Head Of Mobile App Development - Contact

May 2017 - Apr 2018, Dhaka, Bangladesh

I have worked and managed the mobile app team for BanglaPuzzle that has won the National Mobile Application Award in 2017.

### P1, Bashundhara Group / Software Analyst, Full Time

Apr 2016 - May 2017, Dhaka, Bangladesh

I have worked on developing the Business model, wire-framing, User story and technical documents for a large scale client-side application, cross-platform mobile application.

### W3 Eden Inc / Software Technical Support, Full Time

Aug 2015 - Apr 2016, Chittagong, Bangladesh

The best thing I learned from this job is how to manage and frequently give updates to a software which is used by more than 100K people around the world.

---

## Managerial Skills

My leadership consistently drives success by nurturing talent, fostering innovation, and delivering results in a dynamic environment. I'm also good at explaining creative concepts and project visions, promoting teamwork, driving innovation, and expressing my passion for web development to both technical and non-technical individuals.

---

## Communication Skills

I have excellent communication skills, which I've developed through working with people from different countries and international clients. I'm skilled at simplifying complex technical ideas into clear and engaging language.
